

Sidewalk Kit

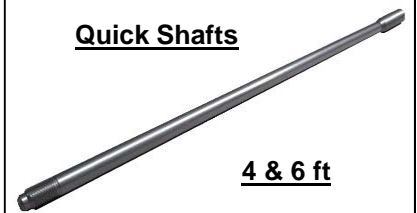

The **Bullet Mole**[®] is a revolutionary **tool system** that simplifies the dreaded task of installing pipe under hardscape surfaces.

- **Fastest, easiest, and most cost effective** way to install pipe under sidewalks and driveways.
- Professional quality tool system manufactured in the USA.
- Engineered to stand up to **years of high impact use**.
- **Penetrates through rocks, roots, concrete and other debris** without removing any of it.
- **Will not deflect off debris!**
- No ~~cutting, water, power, or setup~~ tools required.
- Quickly install **3/4" to 2"** diameter pipe fast!
- Straight installations to **60'** and more.
- **Add shaft extensions as needed.**
- **Handles all types of pipe!** PVC for irrigation; Copper for plumbing; RSG for electrical; and Iron Pipe for gas.
- **Built for daily use by the professional contractor.**
- All our parts are interchangeable.
- Quickly install pipe under 4 ft residential or 6 ft commercial sidewalks in one easy step (**pipe installs as the hole is made**), which is especially useful for loose substrates like gravel.
